

# Accent Clarity Course

## Student Testimonials

(From course held September 14 to November 30, 2017)

*“As a computer instructor, and immigrant, it is very important for me to work on pronunciation. The techniques I learned in this course are very helpful. I gained more confidence in my English speaking abilities and I continue to practise what I learned. Thank you Peggy!”* **Tatjana Q.**

*“Being in this class helped me improve my accent, even though I am not where I want to be, I am grateful for this improvement. Now I feel confident when I am talking to Canadians.”* **Deborah U.**

*“This class helped me understand how English pronunciation works. I can now better understand native English and my pronunciation is more clear and easy to listen to.”* **Michel E.**

*“The English accent and pronunciation course with Peggy is excellent, her techniques are great and not difficult to learn. Peggy constantly checked and supported me on my development every class. I felt this course was different too because the classes were not crowded and it brought a great sense of cooperation among students.”* **Iva S.**

*“Peggy has been working on and perfecting this course for over 27 years. What she teaches is amazing—like nothing else I’ve experienced before. Even though I’ve been in Canada for over 40 years, I learned valuable techniques to improve my accent, and I have a better understanding of the challenges other second language learners face. Well worth the time and money.”* **Martine S.**

*“After taking the class, I knew where my accent came from. The tongue and lip muscles and position were not right before. Now when I am talking I have awareness of my muscles and tongue. My daughter said I had improvement on the mono-tone I had before. I have up and down tone and I stress words now.”* **Xinzhe**
